

# Seth E. Younger

seth.e.younger@gmail.com

---

## Education

- **University of Georgia** **Athens, GA**  
*Warnell School of Forestry and Natural Resources, Ph.D.* 8/2014 – 8/2020
  - **University of Georgia** **Athens, GA**  
*Department of Geography, M.S. Physical Geography* 8/2010 – 12/2013
  - **Radford University** **Radford, VA**  
*Department of Geography, B.S. Geography* 08/2006 – 05/2010
- 

## Experience

- **The Jones Center at Ichauway** **Newton, GA**  
*Postdoctoral Hydrologist* 1/2021 - present
  - Conducted the full life cycle of research including defining a research problem, developing hypotheses, grant writing, collecting data, quality control, database development, developing innovative techniques for analysis, publishing results, and communicating the findings to a wide audience. Analysis with Python, R, SQL, and Google Earth Engine.
  - Quantified longleaf pine restoration effects on hydrology using long-term streamflow data, southeast U.S. watersheds with longleaf have higher streamflow and less extreme low flows.
  - Mentored a graduate student on hydrologic analysis as part of a collaborative project quantifying the hydrology and economics of different forest restoration practices, one paper has been submitted and another is underway.
  - Developed Soil and Water Assessment Tool (SWAT) models to quantify the effects of future climates on the hydrology of longleaf pine ecosystems.
  - Lead manuscript development including team meetings, analysis, writing, revising, and journal correspondence.
  - Contributed to the writing of a successful grant proposal (600k) quantifying the role of upland forest management on wetland health, 2024-2026.
- **Writing and Consulting** **Athens, GA**  
9/2020 - 12/2020
  - Manuscript preparation and revisions.
  - Cartography work as a contractor for Nutter and Associates environmental consultants.
- **UGA, Warnell Hydrology Lab** **Athens, GA**  
*Graduate Research Assistant* 8/2014 – 7/2020
  - Investigated long-term watershed scale evapotranspiration as a function of biotic & abiotic factors in the Southeastern U.S. Published in the Journal of Hydrology: [Younger et al. 2020](#)
  - Lead: Construction of two cryogenic water extraction systems, >20 field campaigns for plant & soil water, & groundwater, 100 field campaigns for precipitation & throughfall amounts, & isotopes.
  - Lead cryogenic vacuum extraction of 1,300 plant and 1,300 soil samples for water isotope analysis.
  - Developed plot level component water budgets for *Pinus taeda* & *Eucalyptus benthamii* trees using estimates of precipitation, canopy interception, evaporation, transpiration isotopic water sourcing techniques including: sap flow sensors, lysimeters: [Younger et al. 2023](#)
  - Contributed to five publications with study design, data analysis, visualization, reviewing & editing.
- **UGA, Warnell Hydrology Lab** **Athens, GA**  
*Hydrologic Field & Laboratory Technician* 6/2013 – 7/2014
  - Collected weekly and monthly tree, soil, lysimeter, throughfall, and well samples.
  - Conducted data quality and assurance, pack and ship samples to analytical laboratories.
  - Prepared reports on rainfall, bare soil lysimeter, and soil moisture data.
  - Hydrologic monitoring, including streamflow and well water measurements.

- Management of HOBO data loggers, ISCO samplers, Global Water level meters, and Decagon soil moisture sensors.
- Assisted with tree planting, fertilization, herbicide application and monitoring experimental plots.
- Conducted GIS Analysis in support of experimental watershed hydrologic investigations using ArcGIS 10.1.
- Developed ArcGIS tools using ArcPy for watershed hydrologic analysis.
- Supported and trained staff with spatial data analysis tasks.

• **UGA, Geography Department**

*Graduate Research Assistant*

**Athens, GA**

1/2011 – 6/2013

- Investigated the use of satellite meteorological data to drive hydrologic simulations in ungauged basins.
- Managed time series data using Python, R and Unix scripting, MS Access and Excel.
- Modeled streamflow with BASINS 4.1 & Hydrologic Simulation Program Fortran (HSPF).
- Spatial analysis and modeling in ArcGIS 10.1 and QGIS, including development of applications using model builder and ArcPy scripting.
- Developed and contributed to development of reports and presentations, MS Word & Powerpoint.

• **Radford University, Geography Department**

*Natural Hazard Mapping Technician*

**Radford, VA**

5/2009 – 7/2010

- Collected, analyzed and managed spatial data and made maps to support the New River Valley, VA Planning District Commission 2010 FEMA Hazard Mitigation Plan update.

• **City of Radford, Virginia**

*GIS Technician*

**Radford, VA**

1/2008 – 7/2010

- Collected and processed Trimble GPS data using Trimble Terra Sync, ArcPad, and GPS Pathfinder Office.
- Management of File Geodatabases data using ArcGIS 9.1-10.0 for Parcels, E911, Public Works, Water, Fire, and Electric departments.
- Cartographic production for internal use and publishing on public web applications (ArcGIS FLEX).

---

## Technical Skills

**Data analysis** Analysis and statistics in *R* & *Python*. Documentation with *LaTeX* and *Markdown*. Version control with *Github*. Writing and presentation with *Microsoft Office*

**Geographic Information Systems** Proficient in *ESRI* products and open source alternatives including: *QGIS*, *gdal*, *Whitebox*, *R spatial packages*, & *Google Earth Engine*. Skilled at developing and adapting spatial data analysis workflows.

**Hydrologic modeling** Experience with *HSPF*, *SWAT* & *MODFLOW*. Familiar with hydrologic modeling principles and able to learn new models quickly.

**Natural Surface Trail** design, construction, and maintenance. Crew leader certified with >400 hours of crew leading experience.

---

## Publications

**Younger, S.E.**, Blake, J.I., Jackson, C.R., & Aubrey, D.P. (In press). Hydrogen isotopic offsets in xylem water measurements under cryogenic vacuum distillation: quantifying and correcting wood-water hydrogen exchange influences. *Ecohydrology* DOI: 10.1002/ECO.2640

**Younger, S.E.**, Cannon, J.B & Brantley, S.T. (2023). Impacts of longleaf pine (*Pinus palustris* Mill.) on long-term hydrology at the watershed scale, *Science of The Total Environment*, Volume 902, 2023, 165999, ISSN 0048-9697, <https://doi.org/10.1016/j.scitotenv.2023.165999>.

**Younger, S.E.** & Foy, A.S. (2010). Conservation Land Use Analysis for the City of Radford, VA. Poster presented at the Big South Undergraduate Research Symposium April 9 & 10.

---

## Professional Societies

American Geophysical Union  
The Longleaf Alliance

---

## Teaching

Fall 2018- Laboratory section instructor for [Soils and Hydrology 3060](#). I taught a lab section and helped to update some of the class [teaching materials](#) and course textbook.

---

## Volunteer and Service Work

- Reviewer: Frontiers in Forests and Global Change, Forest Hydrology Section - September 2023
- Friendly manuscript review - Brantley et al. 11/2022
- Friendly manuscript review - Qi et al. 05/2020
- Volunteer work with SORBA-Athens, local mountain bike trail advocacy non-profit, 2014-present
- Assisting numerous students and community members with GIS and data analysis projects, 2017-2020
- Session technical support - 2017 Georgia Water Resources Conference, April 19 & 20, 2017
- American Water Resources Association - UGA Chapter Club President (2015-16)
- Volunteer trail maintenance and construction with SORBA-CSRA. Over 100 hours in 2014
- Session moderator – 2013 Georgia Water Resources Conference. April 10 & 11, 2013
- Assistant to Brad Suther, soil sampling a late Holocene Pee Dee River point bar, Marion, SC., 50 hrs, 1/2013
- Judge/Staff – 13th Annual Geography Undergraduate Conference. April 19th 2012
- Stream cross section measurement using a photographic technique, Masters Student Dustin Menhart 12/2011
- Measurement of stream cross-sections and channel slopes at Coweeta LTER intensive sampling sites, 10/2011.
- Initiated reactivation of the Kappa Omicron Chapter of Gamma Theta Upsilon – Fall 2009
- Initiated and assisted in sponsoring and clean-up of city roadway. April 2009 – Spring 2010
- Co-organized a group of students to present at the AAG Annual Meeting, Washington, D.C. 2010
- Assisted in organizing Geography Awareness Week events, 11/2010
- Geography Club (all officer roles) Radford University. Fall 2007 to Spring 2010
- Field assistant to Dr. Bernd H. Kuennecke, Salinas De Garanda, Bolivar, Ecuador. (2 weeks) 7/2009
